WHO IS FUJAIRAH NATIONAL HOTELS EST.

The Emirate of Fujairah is one of the most attractive Emirates for tourists and its attractiveness and importance grew significantly because of its strategic location and gorgeous natural features. Fujairah is continuously keeping pace with the development and prosperity in the United Arab Emirates and has started to focus on increasing tourism activities and hotel services.

From this context came the idea of establishing **Fujairah National Hotels** on February 2012 to join all the hotels in the Emirates together and improve their management within specific rules and principles. FNH's objectives are to **develop hotels and their services in Fujairah** in order to keep up with the hotels sector and tourism progress in the United Arab Emirates.

The Establishment currently has **34** hotels and its main functions fall under the employment license of existing hotels in the emirate. This is part of the facilities provided by the emirate to revitalize its tourism sector, as well as the management of personnel affairs in the hotel sector and resolving related disputes.
